

Biologique Recherche

- Authenticity and harmony is the spirit and essence behind Biologique Recherche skin care products which all boast the following specific characteristics:
- High concentrations of botanical, marine and biological extracts.
- No artificial fragrances to preserve the integrity of the formulas and lower the chance of allergic reactions.
- Cold made formulations to preserve the structure of active ingredients.
- Highest quality of active ingredients available.

Face Treatments

Biologique Recherche is the main skincare line used in all of our facials. All treatments are personalised and adapted to client's Skin Instant. Facials may involve the use of LED Light, High Frequency or Ultrasound. Specific face treatments incorporate the state-of-art Biologique Recherche Remodeling Face® Machine.

Balancing Facials target unbalanced, seborrhoeic, dry, dehydrated or pigmented skin. Additional treatment devices can be used during treatment depending on Skin Instant.

Deep Cleansing Facial is recommended for skin affected by Acne or blackheads, when thorough extraction is needed.

Booster Facials follow the unique Biologique Recherche's treatment protocol, incorporating manual lifting and sculpting massage techniques. Specific booster products are used during this treatment, that are excluded from other facials. Incorporation of Remodelling Face® Machine in this treatment is highly recommended to enhance the lifting and skin tightening effect. Recommended for ageing skin.

Triple Lift® treatment consist of booster Lift CVS, booster Lissant and Remodeling Face® Machine.
